1. Background

The European Social Innovation Competition (EUSIC) aims at stimulating the potential of social innovation to provide solutions to societal challenges and to foster sustainable and inclusive growth in Europe. This competition looks for new entrepreneurial solutions responding to the most burning social needs, creating social relationships and enabling new collaborations in an innovative way and bringing effective solutions to systemic social challenges.

This competition is open, among others, to non-profit and for-profit organisations, such as entrepreneurs and social enterprises, Non-Governmental Organizations (NGOs), Civil Society Organisations (CSOs), educational institutions and universities.

2. Objectives – Themes and priorities – Activities– Expected results

The European Social Innovation Competition 2024 will focus on social innovation in '**Digital Democracy**'.

Objectives

The Commission in its Decision: '2030 Digital Compass: European way for the Digital'⁴ highlighted its vision to empower citizens and businesses through digital transformation. The Union's path to the digital transformation of the economy and society should embrace "respect for fundamental rights, the rule of law and democracy, inclusion, accessibility, equality, sustainability, resilience, security, improving quality of life, the availability of services and respect for citizens' rights and aspirations"⁵. The 'Action Plan for the Social Economy'⁶ builds on the participatory and democratic principles of the social economy whose actors can also play a role in democratisation of the digital world.

In the era of rising populism, disinformation, (deep)fake news, hate speech, polarization, radicalisation, foreign interference, and lack of political participation of groups of society, this year's topic aims to:

- incentivise, support and reward social innovations that will help identify and tackle disinformation, encourage democratic governance models in online services, tools and business models;
- connect actors in emerging democratic practices, such as, for instance, the public consultation and deliberation platforms based on Decidim⁷.

⁴ DECISION (EU) 2022/2481 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 14 December 2022 establishing the Digital Decade Policy Programme 2030

⁵ DECISION (EU) 2022/2481 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 14 December 2022 establishing the Digital Decade Policy Programme 2030, available online: Publications Office (europa.eu)

⁶ COM(2021) 778 COMMUNICATION FROM THE COMMISSION TO THE EUROPEAN PARLIAMENT, THE COUNCIL, THE EUROPEAN ECONOMIC AND SOCIAL COMMITTEE AND THE COMMITTEE OF THE REGIONS Building an economy that works for people: an action plan for the social economy, available online : EUR-Lex - 52021DC0778 - EN - EUR-Lex (europa.eu) 5

⁷ The digital platform for citizen participation:Decidim

- promote the creation and adoption of digital commons such as open source, open hardware and open data solutions;
- raise awareness amongst the public about democratic values in the virtual and digital world;
- build grassroots communities and strengthen civil society, based on participation, collaboration, deliberation and building spaces for dialogue based on democratic values
- and develop digital organisational and/or business models driven by democratic principles as well as supporting equal access, open and shared technologies.

The European Social Innovation Competition 2024 will emphasise the importance of digital social innovation to strengthen the Union democratic space where social economy actors and civil society play a crucial role. In light of this, it will support innovative solutions to achieve the above aims in a range of different ways (e.g., through new, scalable digital technologies or innovative use and commercialization of existing ones). Digital technologies and data are tools and assets for social innovators to build new sustainable and community-driven business models which will ultimately bring positive impacts to democracy and societal changes.

The EUSIC 2024 Competition will showcase social innovators' concrete ideas to promote civic engagement and mobilisation through innovative digital services promoting the general interest and democratic principles in the Union. In such situations innovative actors are producing, sustaining and governing collective goods efficiently by innovative and collaborative means and offer new solutions to challenges for democratic systems.

The Competition will look for technological and non-technological social innovations, with a particular focus on new participatory and engagement models, breakthroughs, socially sustainable or breakthrough, market-creating and deep-tech innovations embracing the objectives of this year's edition, which, consequently, will have a positive impact on civic engagement, local prosperity as well as sustainable economic growth

Expected results

The European Social Innovation Competition aims at raising awareness about social innovation across a wide audience, sparking the creation of new socially innovative ideas, creating a network of like-minded practitioners and supporting finalists to transform their ideas into structured businesses.

Applications involving ethics issues will have to undergo an ethics review to authorise funding. Applications that did not respect the above ethical principles and standards cannot be awarded a prize.

Applications involving EU classified information must comply with Decision [2015/444](#) and its implementing rules. Applications that are too security-sensitive cannot be awarded a prize.

¹¹ Innovations that significantly harm the environment (and therefore contravene the 'do no significant harm' principle of the EU Taxonomy Regulation), social welfare or that are primarily designed for military applications, or in other fields which are generally excluded from EU funding pursuant to Article 18 Horizon Europe Regulation, will not be funded (see Annex 2, General conditions for proposals in the EIC Work Programme 2024 – page 136).

7. Exclusion

Applicants which are subject to an **EU exclusion decision** or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate¹²:

- in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant's debts)

- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the prize).

Applicants will also be refused if it turns out that¹⁴:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

8. Evaluation and award procedure

Applications will be subject to a formal evaluation by a **jury**.

¹² See Articles 136 and 141 EU Financial Regulation [2018/1046](#).

¹³ Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to influence decision-making processes or obtain confidential information from public authorities to gain advantage.

¹⁴ See Article 141(1) EU Financial Regulation [2018/1046](#).

If there are more than 60 applications, there will be a **pre-selection** phase to select the best 60 applications to pass to jury review. Otherwise, all admissible and eligible applications will pass directly to jury review.

The pre-selection panel and jury usually have a different composition, but jury members may participate in the pre-selection panel.

The pre-selection panel/jury will evaluate each application against the award criteria.

For applications with the same score, the pre-selection panel/jury will determine a **priority order** according to the following approach: The score for the criterion No 1 will be given a weight of 2 and the score for criterion No 2 will be given a weight of 1.5. If two or more applications still tie for any rank, the prize will be equally divided and awarded to all applications with the same score. On the basis of the evaluation by the jury (and after the mandatory checks: *ethics review, security scrutiny, legal entity validation, non-exclusion, double funding and plagiarism, etc*), the awarding authority will decide on the award of the prizes to the 3 winners.

The 3 winners ranked 1st, 2nd and 3rd will receive a prize.

All applications will be informed about the evaluation result (**evaluation result letter**). Successful applications will be awarded the prize; the not successful ones will be rejected.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications are deemed to have been accessed (and received) 10 days after sending and that deadlines will be counted from then (see also [Funding & Tenders Portal Terms and Conditions](#)).
