

## **EUSF thresholds 2020 for major health emergencies**

(based on Eurostat figures for 2018 Gross National Income)

For the mobilisation of the EU Solidarity Fund country-specific thresholds apply.

For **natural disasters** total direct damage must exceed 0.6% of GNI or € 3 billion in 2011 prices.

For **major public health crises** total public expenditure related to the crisis must exceed 0,3% of GNI or € 1,5 billion in 2011 prices.

In both cases the lower amount applies.

						(million EUR)
